Sub-investment manager

Close Brothers
Asset Management

Objective and Investment Policy

The Fund aims to provide income and moderate growth,

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 years.

The Investment Manager can invest directly and indirectly in a selected range of investments in the UK and around the world. These may include:

- Shares (unit of ownership in a company)
- Bonds (issued by governments and other organisations)

The Fund may also make other investments, including: Cash, deposits and money market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer), and other investment funds.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may also use derivatives for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderately Cautious Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Sub-Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Sub-Fund. The Sub-Fund does not use the benchmark as a target, nor is the Sub-Fund constrained by it. The mix of assets in the Sub-Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 1 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.72%

There are no entry or exit charges.

Launch Date: 17 March 2015

Risk Profile: Cautious

The Cautious Investor may be sensitive to short-term losses. A Cautious Investor's potential aversion to losses could compel them to shift into a more stable investment if significant short-term losses occur. A Cautious Investor is usually willing to accept somewhat lower returns in order to lower their exposure to risk.

Why True Potential Close Brothers Cautious?

The True Potential Close Brothers Cautious Fund is sub-managed by Close Brothers Asset Management and is managed in line with the Close Conservative Portfolio Fund.

The True Potential Close Brothers Cautious Fund provides access to Close Brothers' portfolio management service. This fund is highly diversified and actively managed.
