

True Potential Growth-Aligned Balanced

Objective and Investment Policy

The Fund aims to achieve growth over the long term (5 years or longer).

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

To reflect the balanced nature of the Fund, 40% to 80% of the Fund will be invested in assets which are considered higher risk. Higher risk assets include mainly domestic and international equities, there may also be a varied level of exposure to property, commodities and absolute return strategies. Exposure to these assets will be achieved indirectly through collective investment schemes, listed securities or directly through equities where applicable.

The Fund may also invest directly or indirectly in bonds issued by governments and other organisations, cash, deposits and money market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer).

There is no guarantee that capital will be preserved.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

There are no geographical restrictions on the countries of investment.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderate Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Sub-Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Sub-Fund. The Sub-Fund does not use the benchmark as a target, nor is the Sub-Fund constrained by it. The mix of assets in the Sub-Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 3 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.58%
Share of Growth Fee: 10% of any returns the fund achieves above its high watermark at the annual accounting period date**

There are no entry or exit charges.

Launch Date: 10 May 2018

Risk Profile: Balanced

The Balanced Investor may be somewhat concerned with short-term losses and may shift to a more stable option in the event of significant losses. The balance of investment risk and return are typically of equal importance to the Balanced Investor.
